

DisclosedRx Premier Formulary

This document contains information about the medications covered on the DisclosedRx Premier Formulary. This document represents an abridged list of the most commonly prescribed medications on the full formulary. Please visit www.disclosedrx.com or contact DisclosedRx at 480-561-6005 for additional information about your pharmacy benefit.

How to Use This Document

What is the DisclosedRx Premier Formulary?

The DisclosedRx Premier Formulary is a searchable list of drugs that are covered by your pharmacy benefits. It helps you understand the medications that are included in your plan and their copay tier. This list is reviewed regularly by our Pharmacy & Therapeutics (P&T) Committee to make sure it includes safe, effective, and affordable treatment options.

Please visit www.disclosedrx.com or contact DisclosedRx at 480-561-6005 for additional information about your pharmacy benefit.

How is the Formulary Organized?

Medications are grouped by **Therapeutic Class**, which means they are sorted based on what they treat (like heart conditions, infections, or allergies).

- **Generic drugs** are written in *lowercase italics*. These are just as effective as brand-name drugs and are usually less expensive.
- **Brand-name drugs** are written in **ALL CAPS**. These are the original versions of medications and often cost more than generic alternatives.

What are Drug Tiers?

Each medication is placed into a **tier**, which affects how much you pay out of pocket. Here is what each tier means:

- **Tier 1 – Preferred Generics:** These are low-cost, commonly used generic drugs. They are usually the most affordable option.
- **Tier 2 – Non-Preferred Generics / Preferred Brands:** These are generally moderately priced medications. You will see some brand-name and higher-cost generic drugs on this tier.
- **Tier 3 – Non-Preferred Brands:** These are higher-cost drugs, often brand-name medications that are not preferred. Lower-cost alternatives to the drugs in Tier 3 can usually be found in Tiers 1 or 2.

What if My Medication Is Not Listed on This Document?

This is not an all-inclusive list of prescriptions, over the counter (OTC) medications, or prescription medical supplies that are on the formulary. **Additionally, inclusion on this list does not guarantee coverage since your specific plan parameters supersede the formulary (i.e., some plans may not cover fertility or weight loss medications. Those medications may appear on this list).** Please refer to your benefit materials on your specific plan parameters.

Please contact DisclosedRx at 480-561-6005 for additional information about your pharmacy benefit.

LEGEND		
TYPE		DESCRIPTION
	Quantity Limit	There is a limit on the amount of this drug that is covered per prescription, or within a specific time frame.
	PA Required	You (or your physician) are required to get prior authorization before you fill your prescription for this drug. Without prior approval, we may not cover this drug.
	Specialty	Specialty drugs are high-cost drugs used to treat complex or rare conditions, such as multiple sclerosis, rheumatoid arthritis, hepatitis C, and hemophilia.
	PA/Plan Exclusion > 26 years	
	PA required > 90 MME
